Level 4, Lesson 2 Adapted Guide Level A

The Alpaugh Family
ECONOMICS CENTER

Teacher Tip: This lesson will focus on how commercials can influence us to buy goods and services. Students should be aware of why they want to buy something and to not spend without thinking. Students will also begin to think about if purchases are a one-time purchase, which is when they buy it and are done with costs, or on-going, which is when they buy it and have continued expenses.

The vocabulary words for this lesson are **Influence, On-Going Costs, and One-Time Costs**. All of these terms are very important so that students are aware of why they want to buy something, as well as the total cost.

The adapted lessons are a worksheet to help students differentiate between one-time and on-going costs, There is also a classroom adapted activity.

Level 4

Lesson 2

Jacqui and Gil Visit the Pet Shop

Jacqui's mom is going to take her and Gil

to the pet store to see a barracuda.

Jacqui's mom wants to know why Jacqui

is interested in buying a barracuda. She

tells her about the awesome commercial.

Jacqui's mom asks her if the commercial

influenced, or made her want to buy the

barracuda. Jacqui needs to be aware of

commercials and not spend her money

without thinking.

Jacqui and Gil go to the pet store. There

are signs for the barracuda everywhere.

They learn about one-time costs and on-

going costs when buying things. Gil loves

the barracuda. Jacqui is not sure now.

Jacqui's mom tells them they need to wait

to buy. The store owner tells them about

all the extra, or on-going costs, of the

barracuda. Jacqui and Gil go to look at

other fish too.

Influence

A thing or person that has the power to affect another.

On-going Costs

Costs required to maintain a product.

One-time Costs

No additional money needs to be spent after purchasing this item

On-going vs one time costs

Place the pictures under the tuba if it is a one-time cost, and under the dog food if the item has on-going costs.

	What are the ongoing costs?	What would happen if you didn't pay the ongoing cost?
<p>Ticket Seller</p> 	<p>Wages-money you pay the worker</p>	
<p>Roller Coaster</p> 	<p>Maintaining the roller coaster-make sure it always works</p>	
<p>Waterslide</p> 	<p>Maintaining the water slide-make sure it always</p>	
<p>Mascot</p> 	<p>Wages-money you pay them</p>	
<p>Food Stand</p> 	<p>New Food</p>
