Question 1

Tim earns \$27, which includes a \$3 bonus, after working for 6 hours. Eric earns \$21, which includes a \$1 bonus, after working for 4 hours. Who has a better hourly rate?

Check all of the correct answers. There may be only one correct answer.

☐ Tim

☐ Eric

Question 2

April earns \$11 an hour working at the taco factory. She receives a \$5 bonus if she works over 32 hours in a week. How much will April earn if she works 40 hours in a week?

Check all of the correct answers. There may be only one correct answer.

☐ \$440

☐ \$400

☐ \$445

☐ \$455

Question 3

Donatello is choosing between two jobs:

One is helping to sell dog collars at a market stall every Saturday. He works for 5 hours and receives \$6 an hour. It will cost him \$3 per week to travel to and from the market.

The other job is combing cats at a local cat shelter. He works for 4 hours and receives \$8 an hour. It will cost him \$4 per week to travel to and from the shelter. Which one will earn him the most money overall?

Check all of the correct answers. There may be only one correct answer.

☐ Dog collars = 5 hours per week x \$6 per hour- \$3 travel money

☐ Cat shelter = 4 hours per week x \$8 per hour- \$4 travel money

Question 4

Chandler wants to buy a Q-Cube game console which will cost \$176, and he has already saved \$16. His current job as a llama handler pays \$8 an hour. How many more hours will he need to work at the llama farm to be able to purchase his Q-Cube?

Check all of the correct answers. There may be only one correct answer.
